

Yanel de Angel, FAIA, LEED AP® BD+C, PHIUS CPHC®, RELI, NCARB

After hurricanes Irma and María devastated Puerto Rico in 2017, and with the support of Perkins&Will, Yanel led the formation of [resilientSEE-PR](#), an alliance that provides long-term relief to communities in Puerto Rico through resilient design and planning.

Ongoing projects range from municipal to neighborhood/community-scale interventions and educational programs. ResilientSEE has expanded to other geographic locations providing climate adaptation strategies.

As Principal of Perkins&Will, Yanel manages complex projects and brings a holistic design framework to problem solving. Passionate about community resilience, environmental stewardship and building performance, she is an active member of the Firm's Resilience Lab, Diversity Council, Executive Committee, and a founding member of the Project Delivery Board. Yanel is VP of Practice for Boston Society of Architect (BSA) / AIA Board, co-chairs the BSA Women in Design (WiD) Excellence Awards committee, co-founded the BSA WiD Mid-Career Mentorship committee and is a CREW member.
